We've all wondered what we would do if we could live our lives over again, knowing what we know now. It's easy to imagine, but the actual result might be

far different than we may think, or wish....

In 1972, Bob B. Pilhaus is a radical, 24-year-old surfer/hippie/intellectual, a cultural refugee, a lost soul, desperately searching for meaning and peace of mind. Stoned and alone on a train to Biarritz, looking for relief in some soothing, autumn waves on the Bay of Biscay, BP tries to ingratiate himself with a beautiful woman in the dining car--a French-Canadian named Esmeralda. There is far more to her than it appears, though, and Beep makes a bargain he lives to regret, never dreaming that time travel could be so easy, or that growing up again could be so tough....

"Beep! is a coming of age story with a twist, set against the tumultuous backdrop of the 1960s. As the book's flawed hero seeks to redeem himself, local history, happenings on the national scene, the evolution of surf culture, physics and philosophy are woven together in this original and enjoyable tale." — Sherry Seethaler, San Diego Union-Tribune columnist and author of "Lies, Damned Lies and Science" (FT Press)
