

# Churchill Crocodile Flamethrower New Vanguard 136 - Unleashing Firepower like Never Before

When it comes to military warfare, innovation and adaptability can often make all the difference. In the annals of history, there have been numerous instances where new weapons and tactics revolutionized the way battles were fought. One such groundbreaking invention was the Churchill Crocodile Flamethrower, prominently featured in the New Vanguard 136 release.

## The Birth of a Wartime Beast

During World War II, the Allies were constantly seeking ways to counter the terrifying armored forces of the Axis powers. It was during these turbulent times that the Churchill Crocodile Flamethrower was born. A variant of the Churchill

tank, it featured a flamethrower as its main armament, capable of launching devastating fireballs towards enemy positions.

The Crocodile Flamethrower embodied sheer firepower, with its tank-mounted flamethrower having a range of approximately 120 yards. This immense reach meant that enemy soldiers, bunkers, and defensive positions could be flushed out and destroyed with ease, unleashing a reign of fire upon them.

### Realizing the Potential

The invention of the Churchill Crocodile Flamethrower allowed for a whole new dimension of warfare. Armored vehicles equipped with flamethrowers became formidable weapons capable of demoralizing and decimating enemy troops. The psychological impact of facing a flaming wall of death was unparalleled, breaking enemy lines with fear and confusion.

Furthermore, the Crocodile Flamethrower was not limited to targets on the ground. Its range also made it effective against low-flying aircraft, which could be easily brought down with a well-aimed burst of flames. This versatility proved

crucial in many battles, as it provided a means to counter threats from both land and air.

A fire-breathing monster on the battlefield, the Churchill Crocodile was one of the most awe-inspiring weapons of World War II. Tank expert David Fletcher chronicles the development of the flamethrower tank, examining the dramatic effect of these tanks in battle from use in France to the terrifying attack on the Senio River in Italy, as well as investigating the post-war use of Crocodiles to burn down and sterilise the site of Belsen concentration camp, and their mobilisation for the Korean War. Researched using the papers of Reginald Fraser the genius behind the flamethrowers and dramatically illustrated with detailed artwork and previously unpublished photographs, this book brings to life the true terror of these tanks.
