After recovering from breast cancer treatment and the shock of my diagnosis, I hit the road full-time in an RV. I realized how short life could be. Do what you love and go where you have always wanted to go, now, before it is too late. Tomorrow is not guaranteed. Most of the authors of books and blogs I have read on RV and van life write about how great the lifestyle is, with Instagram worthy pictures thrown in, without taking into consideration the negative aspects of the lifestyle. This is not one of those books. Solo travel in my RV and two vans for many years has enriched my life immensely, but I had many mishaps along the way. I have stories to share and lessons to pass on. A few of the many topics in this book: • How to overcome the fear of solo travel. • How to downsize and embrace minimalism. • The pros and cons for the types of vehicles you could live in. • How to find free or cheap campsites in beautiful locations. • How to meet other nomads for friendship and dating. • How I converted two cargo vans into my

homes (one requires no tools.) • How to stay safe from wildlife (I survived a rattlesnake bite - I share the details in my book.) • How to stay safe from bad people (I had a few encounters.) A Resource Guide (chockful of online resources and links) is included with this book.
