A must for all ERF fans, this is the third and final installment in The Lorries of Arabia series. While the first book paid tribute to ERF's world-class long-haulers in the Middle East and those who drove them and the second book went on to explore the fortunes of this legendary machine, this final volume is a continued narration of an unfolding history in the 1970s and 1980s of a premium tractive unit model. With new findings, new details, new insights, and new pictures, readers of the first two books will surely enjoy the final volume of this acclaimed series. Containing a full register of all the 91 NGCs known to have ever been built, this is the enthusiast's guide to the rugged, reliable, left-hand drive tractive

unit forever associated with long-haul European and Middle Eastern routes of the 70s and 80s.
