With its spherical shape resembling a globe, the lamp features intricate details of continents, countries, and cities. When illuminated, the Spin The Globe Lamp casts a mesmerizing pattern onto the surrounding walls, creating an ambiance reminiscent of a night sky filled with stars.

Booth's dedication to quality craftsmanship is evident in every aspect of this piece. The lamp is handcrafted using premium materials, merging modern artistic

design with durability. Its sleek and minimalistic look ensures that it seamlessly fits into any interior setting, adding a touch of elegance and sophistication.

How It Works

The Spin The Globe Lamp incorporates cutting-edge technology to offer an immersive and interactive experience. The lamp is equipped with a built-in sensor that responds to touch, enabling you to control the intensity of the light.

By gently spinning the globe, you can adjust the brightness of the lamp. As you turn it clockwise, the light gradually becomes brighter, illuminating the room with a warm and inviting glow. Similarly, a counterclockwise spin reduces the brightness, creating a more subdued atmosphere.

This unique feature not only adds practicality to the lamp but also engages you in an interactive experience. It allows you to set the desired ambiance effortlessly, enhancing the overall atmosphere of your living space.
