General Ojukwu As an Institution is a researched biography of Odumegwu Ojukwu of Nigeria, Africa. It's therefore synonymous with revisiting the Nigeria–Biafra conflict. Gen. Ojukwu and Biafra are, therefore, inseparable. It's a history of an important event and cannot be denied. This book is not an attempt to arouse emotions and sentiments about the Forgotten War, nor does it advocate any revenge. After all, all wars are Zero-sum Game. Rather, General Ojukwu as an Institution attempts to herald the extraordinary character of an individual—the god of war and a military tactician, the product of British Oxford-educated pedigree, the dapper, the “Steam engine in pants” who stopped the Nigerian insurgents and the British intrigue from completing the second twentieth-century holocaust while the civilized world slept.
