

Unveiling the Highlights of the 12th International Andrei Ershov Informatics Conference Psi 2019 Novosibirsk

The highly anticipated 12th International Andrei Ershov Informatics Conference Psi 2019 Novosibirsk is just around the corner, promising to bring together leading experts, researchers, and professionals in the field of informatics. This prestigious event, recognized for its high-quality presentations and cutting-edge topics, aims to showcase the latest advancements in informatics and foster collaboration among participants from all corners of the globe.

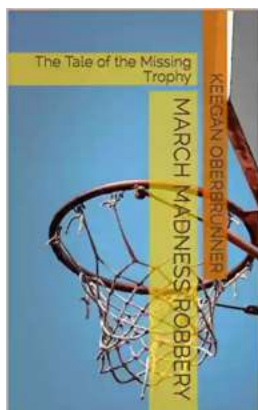

What to Expect from Psi 2019 Novosibirsk?

As the 12th edition of the conference, Psi 2019 Novosibirsk is set to surpass previous occurrences in terms of the breadth and depth of its program. The conference will span over several days, featuring a plethora of thought-provoking presentations, engaging panel discussions, and insightful keynote speeches. Attendees can expect a diverse range of topics covering various aspects of informatics, including but not limited to:

- Data Science and Artificial Intelligence
- Software Engineering and Programming Languages
- Human-Computer Interaction
- Information Security and Cryptography
- Computational Biology and Bioinformatics
- Cloud Computing and Big Data Analytics

Notable Keynote Speakers

One of the highlights of Psi 2019 Novosibirsk is undoubtedly the lineup of prominent keynote speakers. Renowned scholars and industry experts will take the stage to share their invaluable insights and experiences. Among the distinguished speakers, we have:

Perspectives of System Informatics: 12th International Andrei P. Ershov Informatics Conference, PSI 2019, Novosibirsk, Russia, July 2–5, 2019, Revised ... (Lecture Notes in Computer Science, 11964) by J.E. Bright(1st ed. 2019 Edition)

1. **Dr. Maria G. Stankova:** With decades of experience in the field of artificial intelligence and data mining, Dr. Stankova is a highly regarded expert. Her groundbreaking research on machine learning algorithms has revolutionized the industry.
2. **Prof. John T. Hale:** An authority in programming languages, Prof. Hale has significantly contributed to the development of programming paradigms. His

work on functional programming has paved the way for greater efficiency and reliability in software engineering.

3. **Dr. Ana M. Collins:** Dr. Collins is a leading figure in the realm of human-computer interaction. Her innovative research on user experience design has transformed the way we interact with technology, making it more intuitive and accessible for all.

Interactive Workshops and Paper Presentations

Psi 2019 Novosibirsk is not only about keynote speeches and panel discussions; it aims to provide a platform for researchers to present their latest findings through interactive workshops and paper presentations. Attendees will have the opportunity to engage in stimulating discussions and exchange ideas with their peers in specialized sessions dedicated to specific subfields within informatics.

The conference also encourages young researchers and students to submit their papers for consideration. By providing a platform for emerging talents, Psi 2019 Novosibirsk seeks to nurture the next generation of informatics experts and foster innovation within the field.

Networking Opportunities and Social Events

In addition to the academic and intellectual aspects, Psi 2019 Novosibirsk also aims to create a conducive environment for networking and socializing. Various events, such as the welcome reception and gala dinner, provide participants with the opportunity to establish valuable connections and foster collaborations with professionals from around the world.

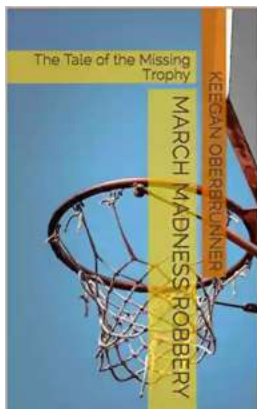

Novosibirsk: The Perfect Host City

Novosibirsk, the third-largest city in Russia, serves as an ideal host for this prestigious conference. Known as the "Silicon Forest," Novosibirsk is home to numerous research institutes, universities, and tech companies, making it an ideal hub for scientific gatherings. Furthermore, the city boasts a rich cultural heritage, offering participants a chance to explore its historical landmarks, vibrant arts scene, and exquisite cuisine during their stay.

Secure Your Spot at Psi 2019 Novosibirsk

The 12th International Andrei Ershov Informatics Conference Psi 2019 Novosibirsk presents a unique opportunity to immerse yourself in the latest trends and developments within the field of informatics. Whether you are an academic, industry professional, or a student, this conference is a must-attend event that promises to broaden your knowledge, connect you with like-minded individuals, and inspire your future endeavors.

Don't miss out on this extraordinary experience. Reserve your spot today and get ready to embark on a journey of discovery at Psi 2019 Novosibirsk!
